

Scorecard Completion Rule

It is a condition of our competitions that you ensure your hole-by-hole score is correct in Golf Genius within 30 minutes of the conclusion of play for each round. This is deemed to be around 30 minutes after the last group completes play for the round. At that point, you will be deemed to have "signed your scorecard". After that, if Golf genius reflects a higher score than you actually made, you will be stuck with the higher score. If Golf Genius reflects a lower score than you actually made or if there is no score recorded for any hole, you will be disqualified.
